CLASS DEFINITIONS:

STOCK - Applies to all (pre and post-1948) stock-standard vehicles, regardless of body style, and includes those vehicles with minor modifications which would NOT cause a vehicle to legally require LVV certification (i.e. under-threshold certification modifications including wheels/tyres/springs/shocks, etc are permitted).

HOT ROD - Applies to all pre-1949 vehicles which are modified beyond the criteria specified in 'STOCK'. Sub-classes are:

Pre-49 Hot Rod Roadster - includes cabriolet or tourer body styles (because they have a removeable top).

Pre-49 Hot Rod Coupe - includes 3-window, 5-window, and sport coupe body styles.

Pre-49 Hot Rod Sedan - includes 2-door, 4-door and Victoria (Vicky) body styles

Pre-49 Hot Rod Commercial - includes utility, coupe-utility, pickup, station wagon, sedan delivery, light truck, and cab-over engine (COE) truck body styles.

RAT ROD - Applies to a vehicle that has been hand built using various components, free of the signature characteristics of street rods, i.e. billet components, high gloss, metal flake paint, etc, and designed to give a unique, unfinished look.

MODIFIED: Applies to all post-1948 vehicles which are modified, such that LVV certification IS legally required (beyond the criteria specified in 'STOCK'), but which are not modified to the extent of 'CUSTOM'.

Post-48 Modified Convertible

Post-48 Modified Coupe – includes all 2-door pillarless (sports coupe) body styles

Post-48 Modified Sedan – includes all 4-door post sedan, 4-door pillarless sports sedan, and 2-door post sedan body styles

Post-48 Modified Commercial - includes utility, coupe-utility, pickup, station wagon, sedan delivery, and light truck body styles.

CUSTOM: Applies to all post-1948 vehicles, regardless of body style, which feature heavily-customised and hand-made bodies, which include, but are not limited to, roof-chops, sectioning, channelling, tilt-fronts, or numerous obvious body modifications.
