Entries close 20 October 2018

Any further questions contact Wade Nisbet 0273 764 214

Whangarei to Cape Reinga and return.

27 October 2018.

Meet at the metal dump carpark 0630am for sign in and a quick drivers briefing and departing at 0700am.

Heading North (funny that!) on SH 1 to Kawakawa, Moerewa and hang a right at Ohaeawai and head for the hills, Maungmuka that is! Then into Kaitia for a potty, petrol and coffee stop.

Visit one of the local bakeries to grab something for lunch or bring your own from home.

Back on the road with a full tank and empty bladder, we continue on SH1 looking for the end of the road, or is that the beginning? The road is sealed all the way to the top now so no need for all wheel drive. We may need to get creative with parking when we get there but I am sure we will work it out.

Wander down to the lighthouse for an obligatory selfie under the signpost and a look around. Back to the carpark to enjoy the lunch you packed and a cuppa tea. Keep your ears open for some spot prizes while you eat.

Heading South now (because that's the only choice!) we will swing left onto SH10 to drop into Mangonui for a few more spot prizes, an ice cream and a little rehydration for the journey home.

Sticking with the numbers game and the left turn trend, it is onto SH11 for the glory run along the waterfront in Paihia before the return to the bustling metropolis that is Whangarei!

Through town to the water front an into.....you guessed it.....Frings for a well-deserved cold ale and some piping hot pizzas.

The run is NZHRA sanctioned so vehicles will need to be certified or displaying a stock sticker, have a current WOF and REGO and have filled out the run registration to be eligible for spot prizes.
